Hunterdon Center for Surgery requires you to show *one* of the following _on the day of your procedure:_

Option 1: proof that you're fully vaccinated against COVID-19

Option 2: a hard copy of a negative COVID-19 test (within past 6 days)

Option 3: proof of a recent COVID-19 infection (within last 90 days) from which you've recovered

- -

Option 1: How to show you're fully vaccinated

You're considered fully vaccinated if you had your second Pfizer or Moderna dose or your single-dose Johnson & Johnson vaccine at least two weeks ago.

Here are the options for demonstrating your COVID-19 vaccination status:

- _A physical copy of your vaccine card_
- _Printed documentation from your health care provider_
- _Printed screenshot from Docket app_

Option 2: How to show proof of a negative COVID-19 test

You must bring a **physical copy** of a COVID-19 test taken _within 6 days of your procedure date_.

- _Rapid (antigen) or PCR tests accepted_
- _Home tests NOT ACCEPTED_
- _Saliva tests NOT ACCEPTED_
- _Must quarantine after your test until your procedure_

Option 3: How to show proof of a COVID-19 infection (within 90 days of procedure)

- _Physical copy of your positive lab results_

If you develop symptoms of COVID-19 while awaiting your surgery please contact a nurse to discuss how to proceed. You may need a COVID test or your procedure may need to be delayed, depending on severity of your symptoms and nature of your procedure.
